

SURVEILLANCE

"THE SMARTEST HEARING PROTECTION IN THE WORLD,"

SURVEILLANCE

Our surveillance products for listening only, or two-way communications provide protection, comfort and durability. They provide optional remote control of the push-to-talk function of the radio. They are designed for use in low to moderate noise environments where discreet transmissions unnoticed by those around are preferred.

dB BLOCKER® COVERTS (#7300 - #7315)

Discreet clear earpieces with patented noise limiting filter and available in 4 sizes to fit and protect any ear.

U LTRALITE (#8807)

Most preferred by Law Enforcement, the ClearCall™ Ultralite optimizes discretion for surveillance while maximizing clarity. Ideal for situations where rugged, reliable communications are required. This minute over-the-ear communication cord set provides clear, reliable sound to the covert earpiece. The ClearCall™ Ultralite is highly recommended for General Policing & Security and Emergency Response Teams where dependable response is necessary between communicators.

RECOMMENDED USES

- General policing & security
- Emergency response teams
- Fire
- Police
- Security enforcement
- Warehouse foremen

FEATURES

- Eliminates condensation issues making Ultralite very reliable
- Kevlar reinforced cord for field tested durability
